Printing date 18.10.2022 Version number 3 (replaces version 2) Revision: 18.10.2022 SECTION 1: Identification of the substance/mixture and of the company/undertaking · 1.1 Product identifier · Trade name: SHERAPRESS-FLEX · Article number: 502060 · 1.2 Relevant identified uses of the substance or mixture and uses advised against: No further relevant information available. · Application of the substance / the mixture: Manufacture of dental products. · 1.3 Details of the supplier of the safety data sheet · Manufacturer/Supplier: Manufacturer: retec® Kunststofftechnik GmbH Industriestrasse 2 D-61191 Rosbach v.d.H +49 (0) 6007 91570 info@retec-dent.de www.retec-dent.de Contact person: Dr. Manfred Steinbach Supplier: SHERA Material Technology GmbH & Co. KG Espholstrasse 53 D-49448 Lemfoerde sdb@shera.de + 49 (0) 5443 9933-0 · Further information obtainable from: Department of product security. · 1.4 Emergency telephone number: Giftinformationszentrum-Nord +49 (0) 551-19240 (Information in german or english) **SECTION 2: Hazards identification** · 2.1 Classification of the substance or mixture · Classification according to Regulation (EC) No 1272/2008: Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects. · 2.2 Label elements · Labelling according to Regulation (EC) No 1272/2008: The product is classified and labelled according to the GB CLP regulation. · Hazard pictograms: Void. · Signal word: Void. · Hazard statements: H412 Harmful to aquatic life with long lasting effects. · Precautionary statements: P273 Avoid release to the environment. P501 Dispose of contents / container in accordance with local / regional / national / international regulations.

· Additional information:

Contains dibenzoyl peroxide. May produce an allergic reaction.

• 2.3 Other hazards Contains methyl methacrylate, dibenzoyl peroxide. Can cause allergic reactions.

- · Results of PBT and vPvB assessment:
- · **PBT:** Not applicable.
- · vPvB: Not applicable.

CAS: 94-36-0 EINECS: 202-327-6 Index number: 617-008-00-0 Reg.nr.: 01-2119511472-50	dibenzoyl peroxide Self-react. B, H241; Org. Perox. B, H241; Aquatic Acute 1, H400; Aquatic Chronic 1, H410; Eye Irrit. 2, H319; Skin Sens. 1, H317	<19
SVHC		
Non-dangerous ingredients	5	
acrylic polymer		95-<100
Additional information: For	the wording of the listed hazard phrases refer to section 16.	
SECTION 4: First aid n	neasures	

If skin irritation continues, consult a doctor.

· After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing:

Rinse out mouth and then drink plenty of water.

If symptoms persist consult doctor.

- **4.2 Most important symptoms and effects, both acute and delayed** No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fire with alcohol resistant foam.
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- · 5.3 Advice for firefighters
- · Protective equipment: Wear self-contained respiratory protective device.
- · Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Avoid formation of dust.

Do not breathe dust.

- \cdot 6.2 Environmental precautions Do not allow to enter sewers / surface or ground water.
- \cdot 6.3 Methods and material for containment and cleaning up <code>Pick</code> up mechanically.

(Contd. on page 3)

Version number 3 (replaces version 2)

Revision: 18.10.2022

(Contd. of page 2)

Trade name: SHERAPRESS-FLEX

Printing date 18.10.2022

· 6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling Prevent formation of dust.
- · Information about fire and explosion protection: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage
- · Requirements to be met by storerooms and receptacles: Keep container tightly closed.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- · Storage class: No information available.
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

· Ingredients with limit values that require monitoring at the workplace:

94-36-0 dibenzoyl peroxide

WEL (Great Britain) Long-term value: 5 mg/m³

MAK (Germany) Long-term value: 5E mg/m³ cf. Section Xa

· Additional information: The lists valid during the making were used as basis.

· 8.2 Exposure controls

- · Appropriate engineering controls No further data; see item 7.
- · Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures:
- The usual precautionary measures are to be adhered to when handling chemicals.
- Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not eat or drink while working.

- · Respiratory protection: Use suitable respiratory protective device in case of insufficient ventilation.
- Hand protection

Protective gloves

The glove material has to be impermeable and resistant to the product. Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Version number 3 (replaces version 2)

Revision: 18.10.2022

Trade name: SHERAPRESS-FLEX

Printing date 18.10.2022

(Contd. of page 3)

· Penetration time of glove material:

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye/face protection Safety glasses.

· Body protection: Protective work clothing.

SECTION 10: Stability and reactivity

• 10.1 Reactivity Stable under normal conditions of storage and transport of solids.

· 10.2 Chemical stability No decomposition if used according to specifications.

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- · 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials No further relevant information available.
- · 10.6 Hazardous decomposition products

Exothermic decomposition resulting in the formation of: methyl methacrylate.

SECTION 11: Toxicological information

- · 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
- \cdot Acute toxicity: Based on available data, the classification criteria are not met.
- · Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- \cdot Reproductive toxicity Based on available data, the classification criteria are not met.
- \cdot STOT-single exposure Based on available data, the classification criteria are not met.
- \cdot STOT-repeated exposure Based on available data, the classification criteria are not met.
- \cdot Aspiration hazard Based on available data, the classification criteria are not met.
- \cdot 11.2 Information on other hazards
- · Endocrine disrupting properties

None of the ingredients is listed.

SECTION 12: Ecological information

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.

(Contd. of page 5)

- · 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · **vPvB:** Not applicable.
- · 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

- · 12.7 Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

SECTION 13: Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation: Waste disposal according to official state regulations.
- · Waste disposal key:

The waste disposal code as prescribed in the EuropeanWaste Catalogue (EWC) depends on the waste producer and can thus vary for a product. The waste disposal code should thus be obtained separately from the waste producer in each case.

· Uncleaned packaging:

• Recommendation: Disposal must be made according to official regulations.
