

FRAME CLEANER

Indication

Ready for use cleaning and grease removal liquid for sandblasting frames before ceramic burning.

Preparation

- Fill GERÜSTCLEANER into a lockable container made of glass or acrylic.
- Put in frame to be cleaned.
- Lock and clean for 5 minutes in an ultrasonic bath.
- Leave the frame for further 5 minutes in the GERÜSTCLEANER.
- Pick up the frame only with tweezers.
- Avoid a whirl up of the liquid while taking out the frame.
- Do not wash the frame afterwards with water and never use compressed air, as there are always impurities in the compressed air.
- In case of frequent use the liquid should be renewed daily and the container should be washed.
